

Going Global Research Task

You will complete a mini-project as a way of helping to develop research skills.

1. Explore the websites and clips on the Project Qualification webpage:
<http://www.passmoresfalcon.com/global-goals.html>
2. Choose a **Global Goal** that interests you (e.g. 'Reducing Poverty').
3. Find 3 sources of information about this goal and produce a short summary of these sources
4. Think about where each source might be limited (e.g. is it based on rigorous research? Does it use evidence?). For each source explain these limitations.
5. Make sure that you include references in a bibliography at the end. You can find a guide for writing a bibliography

Use the planning chart and referencing guides on the website to support you.

<http://www.passmoresfalcon.com/research-skills.html>

You will present your findings at a round table discussion in the first week back.
